"Darkness cannot drive out darkness; only light can
do that. Hate cannot drive out hate; only love can do
that."

-Martin Luther King, Jr.

"It takes courageous fools to walk into a dark place,
to say, yes, we can find a way through this... The
foolish and the brave are among us now, prairie
dwellers who get up every morning to see what
steps they can take in such dim light... Too often
they sort themselves out along lines dividing rural
from urban, producer from consumer, public from
private, Indigenous from non-Indigenous, but some-
where ahead, where the land rises to meet the pipit
song that falls from summer skies, there might yet
be a place, a sandy plain, where we, sharing one
tent peg, can meet and see how the prairie might
bring us together."

-Trevor Herriot (*Towards a Prairie Atonement*)

The Town of Hanley has bunnyhugs
for sale at the Town Office.

Only Youth Sizes left - \$30

Any funds generated over the original
cost will go towards the Fire Hall
project.

Hanley Housing Authority

Hanley Housing Program

The Hanley Housing Authority on behalf of Saskatchewan Housing Corporation, offers the Social Housing Program. This program is designed to ensure that safe, adequate housing is available to those who could not otherwise afford it. Our tenants benefit from a safe place to call home, a community they can enjoy and peace of mind.

General Requirements for Housing

Applicants must meet income and asset limit requirements to be eligible for the Housing Program. All applicants are required to complete an application form and provide verification of income and assets, as requested.

Review Process

Applications are reviewed for eligibility and approved by the Housing Authority Board of Directors. We utilize a point score system that considers adequacy, suitability and affordability when determining the priority of need.

Once approved, units are allocated upon availability on a priority based, point score system.

Additional Information Senior housing rent is based on income – 30% of gross household income, collected via pre-authorized payment.

Units are smoke free – No smoking in the units by tenants or guests. Housing tenants are responsible for obtaining and paying for their own power. Heat, water/sewer are included in the rent.

Any questions related to the Hanley Housing Authority should first be directed to the manager.

All requested income information and previous landlord references must be included or application will not be processed.

Gift card available to qualified referrals.

Report Cards	Mar 8
Gr. K-6	
PD Day	Mar
No School	12

I'm not sure about anyone else, but it seems our home thermometer has a spring inside it this winter. We sure have experienced a lot of drops and then higher temperatures week to week instead of some consistent weather patterns. It's been great to see the students arrive ready for play at recess and I'll encourage parents to re-mind all their students including high school students about appropriate winter clothing even when picked up by the bus.

Our Cold Cats club has over sixty names of K-7 students listed and again it's nice to see so many of them who took advantage of that option on the few indoor recess days we have had. We will continue to run this as an option to staying inside – please make your own wishes known to your elementary students about if you'd like them to head outside. We won't be forcing students on the list outside if they want to remain in especially when the rotation has them in the gym at noon.

Semester one exams are starting on Thursday this week and many classes are reviewing and studying to prepare. Wednesday, January 31st is the midway point of the year and a day for report cards to be prepared and planning to begin for Semester two. There are no classes on that day. Semester two classes begin on Thursday, February 1.

I want to encourage all grade 11 and 12 students who are interested to see me about finishing a Youth Apprenticeship Program. It sees students working through some simple apprenticeship assignments that will give them a step ahead of others who might be also looking to enter an apprenticeship agreement to start their career. It's also important to note that we have had a few grade 12s already receive conditional acceptance to university programs starting in the fall. It's an exciting time for them all as their life after grade 12 begins to take shape.

February break will start on Family Day, February 19th. The Grade 12 Work Experience Week 2 will take place following the break as we've had in practice for a few years.

The School Community Council would like me to mention that we still have copies of the Community Calendars available at the office that families ordered this fall. The cost remains at \$10 each.

I was very proud of the school and community to see so many donations this season to our call for clothes and food items to help those in need. What a great example for our students to see and witness the generosity and assistance for others.

That's all for now. For further information and updates from the students and classrooms, check out our school website at <http://blogs.spiritsd.ca/hanley/>. As always, Mr. Anderson and I would love to talk to you if you have time to drop by the office or give us a call. Take care and I'll talk to you soon.

☐ Students may have 2 ½ hours to write each exam.

☐ Return all textbooks/school materials on the day of the examination.

☐ Students must write for a minimum of one hour.

☐ There are assigned study hall rooms for grades 10 to 12.

☐ Students need to clean out their lockers and return all library books.

☐ The first day of classes for the second semester will be Thursday, February 1, 2018.

Kindergarten & Grade 1

We are in full-swing in 2018!

Math:

Ks: We are working on recognizing and building patterns as well as working on numbers from 0-10.

1s: We just wrapped up our skip-counting unit. We learned how to count for-wards and backwards by 2s, 5s, and 10s. We are now moving on to decomposing numbers 0-20.

Science:

The 1s are learning about the human body and sharing their knowledge with the Ks.

ELA:

Ks: Read-alouds and Phone-mic Awareness.

1s: Readers Workshop, Writers Workshop, word families, letter sounds.

We are excited for our upcoming field-trip to Saskatoon: 4Cats Art Studio, BPs, and Mari-an Gymnastics!

Mrs. Martineau & K/1s

Grades 2

After an exciting and smooth transition from the 2/3 split, we are officially a full-fledged Grade 2 class!

ELA: We are happy to say that we are continuing our Daily 5 and Writer's Work-shop with the Grade 3s. We have also begun an author study on Kevin Henkes as well as diving into the ma-kings of a full detailed sentence!

Math: We are full throttle into our measurement unit, and have been exploring different objects and different ways to measure them.

Science: We have started learning about the different properties of solids, liquids and gases.

Social Sciences: The Grade 2s are happily learning more about our beautiful country and all that we are as members of that community.

The year is off to an amazing start and we are excited to continue this journey together!

Grades 3

Hello! I can't believe that we are already on the second half of January! Miss McDonald and I are currently co-teaching ELA with the grade 2-3s. It's been neat being able to share both classroom learning spaces and pop back and forth between the two. In ELA, we have started an author study on Kevin Henkes and are also working on a creative writing unit for writ-er's workshop.

For grade 3, we are adding and subtracting 2 and 3 digit numbers in math. I would en-courage the students to work on their basic mental math skills to 20 as we are starting to use larger numbers to 100 with mental math, and I'm finding that some need a bit more support in this area. In social studies, we are exploring the world and will soon be completing a research project on different countries around the world. We are also starting a new science unit on materials and structures.

Grade 4

Hi Everyone,

This is Memphis, Jordyn & Zac with the news from grade 4 this month. We have start-ed a lot of new units in every subject. On Fridays, we some-times write in our blogs about books or things we are doing in class and as a class we read the book Wonder. It is about a kid who has had several surgeries. When we read in the mornings we get to read anything we like and we can read with partners too! In art we are learning

how to make our artwork realistic. We have been drawing different animals and have used pencil, pencil crayon and water colour paint so far. In health we are learning about respect and relation-ships. In science we are doing cool experiments involving light. So far we have learned about refraction and how light bends when it passes through different liquids. In social studies we are learning about the medicine wheel. We were split into groups to create our own sections of the medicine wheel that we put together on a bulletin board in our classroom (see picture below). Mrs. Martineau and Mr. Block are com-ng to visit this week to help us learn more about First Nations culture and European settlement. We look forward to it!

That is all for now! ! Take care everyone!

Grades 5 & 6

The grade 5/6 class is starting a new unit in Science about the human body. In ELA, we have been focusing on writing skills. In health the students are focused on nutrition and healthy choices. We have started a new project called Genius Hour. The students will be bringing papers home to share with you about this. The grade 6's are working with decimals in math.

Grade 7

January has certainly been un-predictable when it comes to weather! Nevertheless, things remain consistent in Grade 7! The class is working hard in all areas. We have been wrapping up our novel study of The Face on the Milk Carton. We are currently writing book reviews! In math, we have been working through our fractions unit. In social studies, we will be studying different types of governments and in science, the class

has been working on ecology projects. Never a dull moment around here!

Progress reports are just around the corner. These reports will be going home on Feb. 6. Should you have any questions or concerns, or would simply wish to discuss your child's progress, please feel free to contact me at the school (306-544-2511).

Grade 8

The Grade 9's have been busy finishing up semester one. They are wrapping up their welding and small engines units in IA and their egg unit in Home Ec. They will soon be switching courses for the second semester. In ELA, the students have wrapped up their unit on non-fiction and have refocused on scripts. They are currently writing their own and will be turning them into videos or plays shortly. Social Studies has

been all about Ancient Greece and Rome. The students have been looking at various factors that influenced each of the Greek city-states. They will soon be running their own city-states in a classroom simulation. In Art class the students have been working on perspective drawings and in Math they are focused on variables. PE has the students working to improve their fit-ness testing and floor hockey

skills. They are learning all about electricity in Science class and have been building their own resumes in Career Ed. That's all for the Grade 9's in the month of January!

Grade 9

In Math, the grade 8s are learning the formulas to find perimeter and/or area of triangles and trapezoids. In E.L.A., they are learning about justice by read-ing the novel, *Jean Val Jean*. Social Studies has them working on a project where they learn about the different resource based businesses and are to create their own business. In Science, they are learning about cells and the systems of the body. In I.A., they have been making paddles to use while canoeing and paddle boarding. In Home Ec., they have been practicing and learning about table etiquette and manners. P.E. has them doing fitness testing. In Career Ed., they are learning about jobs and their attitude towards them. In Arts Ed., they have been learning about Ancient Roman Mosaics and are in the process of completing their own mosaic.

Grade 10

Well, the Grade Tens are rapidly approaching their first set of final exams and a flurry of studying has ensued. In science, they just wrapped up a unit on Motion. In Workplace Math 10, they have been working on a design – a choice between a dream bath-room and an ice fishing shack.

They have been writing short stories in ELA and playing badminton in Wellness. They have just finished a unit on aquatic and snow ecosystems in Wildlife Management. And in IA, the sawdust and stain have been flying as projects get finishing touches. Finally,

staff members are all hoping they'll be picked to judge the Iron Chef competition in Home Ec, which is the tastiest job around!

Good luck on your finals, everyone!

Grade 11

It is a very busy time of year, as we finish up our classes and pre-prepare for our first set of final exams. In Foundations 20, we just wrote our last unit exam on quadratic equations and parabolas (otherwise known as CUPS). In Psychology 20/30, we just finished researching independent projects. In Physical Science 20, we have just written an exam on our Heat Unit. In Phys. Ed. 20, we have completed our fitness testing this past week. In Environmental Science 20, we have been studying how humans have affected climate change. In ELA/History 20, we are examining Hitler, power and authority. Good Luck on Final Exams!

Grades 12

Happy New Year! The grade 12s have started 2018 with a final sprint to the end of the semester. Our students have been finishing the last of their course work, completing the last unit exams, and beginning to pre-prepare for their final exams. ELA

concludes with a study of "Who Speaks for Canada" by examining different sources of the Canadian voice. In social studies, the students have concluded the final unit on collective security and issues in Canadian sovereignty. The math and sciences classes have begun their re-views of the year in preparation for final exams. Good luck to all grade 12s on their final exams!

What makes the sky blue?

A clear cloudless day-time sky is blue because molecules in the air scatter blue light from the sun more than they scatter red light. When we look towards the sun at sunset, we see red and orange colours because the blue light has been scattered out and away from the line of sight.

with nut allergies.

Just a reminder we are a
NUT ALERT school.

Please make sure your child does not bring nuts or nut products to school. Make sure to check packaging.

RULES RULES RULES! (*I did: PDWA's; Transfer Stn; Tax Enforcement; April could do Nuisance bylaw and why can't the Town just go on property to clean up*)

The Council of a municipality is provided the authority to collect taxes that have fallen into arrears through *The Tax Enforcement Act*. It is a very detailed and lengthy process therefore your Town of Hanley administrator likes to get at it right away in January after the taxes go into arrears.

Why do you need to pay taxes? This is the money that the municipality uses to provide services and maintain infrastructure. Also, if you look closer at your tax notice, you will see that there is a portion designated for the school division in which your property is located. Those funds are sent 100% to the school division. In 2018 the office will be sending that money to the Province to be allocated to your school division.

While not required, the town office will send a reminder letter out the first part of December ensuring that you know that the end of the tax year is coming and that after December 31 if your taxes aren't paid, they will go into arrears and it gets pretty costly when that happens. You will also receive a letter from the municipalities auditor in January of amounts owing as of December 31. By the time you receive that letter, you will have incurred the penalty as discussed below.

The Council has a policy that adds a compounded rate of 1% penalty per month. At the January meeting, the list of lands in arrears is presented to Council. When the Administrator is preparing the list, there is a list of considerations to ensure the accuracy of the list including the legal description and title number of the property. Last Hermes, we included a list of the costs that will be added to the taxes. When the list is presented to Council there is a \$20 charge added to your tax roll per property (you could have one title or 4 titles but are charged for only the one parcel). This list is approved by Council removing any properties that are in arrears less than ½ the previous years levy; for example: if you have been levied \$1,000 and you owe \$499, you will be removed from the list. The Council then approves that the list be advertised in one issue of the Davidson Leader and is posted in the office. The list contains a notification that unless arrears and costs are paid in full within 60 days of the date noted, the administrator/treasurer will proceed to register a tax lien. When the administrator is registering the tax liens to each title, the Town policy is that an additional \$20 is added to the property. The cost of the tax lien for each title is also added to your taxes. Once the lien has been registered to each title, you have 6 months to pay arrears and costs in full or the council may authorize the administrator/treasurer, by resolution, to start proceedings for title.

The next step is for the administrator/treasurer to serve a 6 month notice on the assessed owner. If the owner is a farmer, the municipality must also serve a "Notice of Intent to Realize on Security". As the Town administrator doesn't know if you are a farmer or not, this notice is submitted each time. Your property is charged for the registered letter that is sent to you and anyone else on the title that has a registered interest, the cost of a search of each title, and the administrative charge is \$120.

If the arrears are still not paid after the 6 months, a consent of the Provincial Mediation Board (PMB) is required if the assessed value is over \$17,500. At this point, the PMB will contact the person in arrears to set up a payment plan. The property will have a \$50 admin fee added along with the \$20 fee that is paid to the PMB. If payments are being made regularly, they will not provide consent but if payments aren't being made, they will provide consent to the Council to proceed further.

The next step after receiving consent from the PMB is to send a 30-day notice the same way as the 6-month. The property will have the registered letter costs, the cost of a tax search and \$50 added to the tax roll.

If no payment is received after the 30-day notice The Council may authorize the administrator/treasurer to proceed by resolution to proceed with the title acquisition. A \$50 charge is added to the property taxes and the administrator/treasurer will request the title be transferred to the municipality. The land must be offered for sale within 1 year by public auction or tender unless the PMB orders something different.

The Province has developed a "Municipal Property Tax Enforcement - A Citizen's Guide" that can be accessed at <http://publications.gov.sk.ca/documents/313/104350-2017.10.17-Tax-Enforcement-for-Citizens.pdf>

NOTES FROM THE TOWN OFFICE

At our December meeting:

The Council accepted the report as created by the Wastewater Operator, Ben Collins and the CAO and that was forwarded to the Water Security Agency as the federal government requested this report. The report was on the lagoon drainage from the point of the lagoon towards Brightwater Reservoir. The drainage did not reach the reservoir.

There was discussion in regards to the deficiencies of Wall St and a resolution was made to include those deficiencies in the Road Servicing Agreement.

Foreman Ben Collins was approved to attend the Southeast College workshop “Municipal Management Essentials – Being a Safety Leader” in February.

An Inspection/Information report for the watermain and sewer main installation and rail crossings as provided by SAL Engineering was accepted.

An Inspection Observations and Report for Wall St. and Bond St. as conducted by Foreman Ben Collins, Mayor Marv Gerbrandt and CAO Darice Carlson was accepted and instructed the CAO to forward the report to Agvantage Development and Texcana Logistics.

The Asset Management Plan and Asset Replacement Forecast Spreadsheet as prepared by the CAO was adopted as presented. This is a living document that will be updated annually along with the Tangible Capital Asset Register each time an asset is bettered, removed or purchased.

The CAO reported on having attended two Civic Addressing Registry (CAR) webinars. This webinar has been hosted by the Ministry of Government Relations – Emergency Management and Fire Safety and the Provincial Emergency Communications Centre – Sask 911 and will be instrumental in providing accurate addresses to emergency services. The Council will be looking at renaming some of the streets which should be called avenues at some point in 2018 when the third phase of the CAR has been established. Only residents affected will be notified when this will be considered. Urban Systems (the company that assisted with the Asset Management Plan) will be assisting with the mapping for this project.

Pursuant to *The Saskatchewan Employment Act*, unused vacation pay was paid out to the Foreman.

Expenditures were approved for the CAO to attend the 2018 SUMA Convention.

Custom work arrears were reviewed and the unpaid amounts are to be added to the tax roll if not paid by Dec. 31/17.

A CAO holiday was approved for Dec. 22/17.

The Council instructed the CAO to apply for a summer employment student grant with Canada Summer Jobs initiative.

The Council signed a one-year contract for waste disposal services with Loraas Disposal.

A subdivision application was approved.

A donation of one youth sized Town of Hanley bunnyhug was approved for the Hockey Day in Hanley on Jan. 6/18 as hosted by the Hanley Arena and Artificial Ice Committee.

At our January meeting:

On Jan. 2, the Mayor and Foreman noticed a fire in the Town Shop. It was quickly extinguished by the very capable Hanley/Rosedale Fire Dept. The Town has insurance through SUMAssure and the claim adjusters have responded quickly with inspections and temporary shoring.

The CAO has made arrangements for the annual audit to be conducted by Vantage, Chartered Accountants. The RM of Rosedale uses the same auditors so we can share some costs.

A Transfer Station Operations Plan as developed by CAO Darice Carlson and reviewed for comment by the Transfer Station Operator, Wayne Kraft was adopted.

The CAO drafted a Railway Crossing Maintenance and Inspection Agreement for the Council to review and make changes. The agreement won't be necessary till the road servicing agreements are considered for completion certificates so the Council can make further considerations to this agreement before adopting.

The HR committee made recommendations for wages in 2018 for all employees.

As the CAO is the only representative attending the 2018 SUMA Convention, the Council appointed her as the voting delegate for the 2018 SUMAssure AGM.

The list of lands in arrears for 2017 was presented to Council. Lands in arrears of less than ½ the previous year's levy are to be removed from the list and the CAO is to proceed with advertising the said list in the Davidson Leader and post in the Town Office.

2018 appointments were made, councillors volunteered to act in advisory positions and preferred vendors were approved. These will be available for viewing in the January minutes after they are approved at the February meeting and posted on the Town of Hanley website or at the Town Office.

The 2018 assessment appeal fee was set at \$300 per appeal. As the Board of Revision is Gord Krismer and Associated Ltd. the remuneration will be as per the fees set by that company.

After adding a 35% administrative fee to an outstanding account, the account was forwarded to Credit Bureau Collections.

The CAO presented unaudited 2017 water, sewer and waste financial statements which were accepted by resolution of Council.

As the Town of Hanley intends to participate in one or more procurements conducted by SUMA in 2018, a declaration to that effect is to be posted on the Sasktenders website.

Hanley 4-H Beef Club Report

We are starting another year of the Hanley 4-H Beef Club! This year we have 16 members and we are excited to start our 2018 4-H year with new general leaders Curt and Jamie Blacklock. Along with our general leaders we have some important project leaders, who are: Chad Haaland and Jay Bohrsen (Junior and Cloverbud) and Erin Steen (Intermediate). This year we have a new line of club executives: President- Hayes Vermette, Vice President- Chase Bruynooghe, Secretary- Colt Blacklock, Treasurer- Waylon Blacklock, and Club Reporters- Callie Steen and Kylie Willms.

We are really excited for future events in 2018! Some upcoming events are: A fun skating day at a local rink over the spring break and during that day we will also be attending a demonstration at Model Meats. On February 13th we will be having our clubs public speaking competition at the Hanley Hall/Community Centre. We welcome everyone to come and enjoy our speeches and stay for some beverages and baking after the entertainment. This year the district speeches are in Outlook and Regionals will be held in Lucky Lake. On April 14th the club will be holding our annual bottle drive. Please save your bottles and let us know if you have a pick-up out of town.

Some events we have taken part in so far are: Touring the Co-op Feed mill in Saskatoon on December 12th and our Weigh day on December 28th at Blacklock's feedlot. At this time we weighed all of our members beef projects to get a start of year weight for our record books and also predicted how much we want them to gain. We also got the experience Corman Park Vet Services perform an autopsy on a calf. We look forward to seeing you at future events and are excited to continue this 4-H year!

What is Aboriginal Storytelling?

For Aboriginal people, storytelling is both a gift, and a very old custom, sanctioned by the people to teach, entertain, and remember.

Throughout February First Nations & Métis storytelling events are held in schools, libraries, and community organizations throughout Saskatchewan.

Hosted since 2004 by
<http://lssap.wordpress.com/>

Save the date for 2018 - June 15 & 16

This year's donations:

Hanley 4H Beef Club \$100 plus ribbons
 Hanley Drama Club \$100
 Hanley Library \$250
 Hanley Seniors \$250
 Hanley Minor Ball \$450
 Hanley Arena \$3,500
 Hanley Firehall \$8,000

Total Donations for 2017 - \$12,650

Thank you again to everyone who helped out and came to the fair! Hopefully we get some nicer weather next year!!

If anyone is interested in getting involved next year please let us know!

Melissa Maddocks

@ Town Office

Tickets \$25 each

Only 100

available

**** Best and worst bridesmaids dress fashion show**

(bring your dress with you the night of the event)

\$100 Sandbox Gift Certificate for each category

Thank You Notes

The Fit Chick's 2nd Annual Snowman Shuffle raised \$1545 for Hanley's Artificial Ice. It was a clear crisp November day with a slight wintery wind, approximately 85 people attended the walk.

Everyone who registered enjoyed jingle bells for their shoes and some good time camaraderie. Each person was able to buy a bunny hug-proceeds also went towards artificial ice. People attended from Saskatoon, Moose Jaw and Davidson. As well, 3 girls ran virtually, they were from Prince Edward Island and Switzerland!!

Hot chocolate and sugar cookies marked the finishing celebration. Proceeds all went to the Artificial Ice group.

Thanks to the volunteers, and thanks to the seniors who loaned their centre as the registration and completion area. It was perfect place for the volunteers who shared the preparations: registering participants and handing out the bunny hugs. It was a fine way to get a little exercise and get a little fitter. Join us next year.

We would like to thank the seniors and community for the baking they did for our novice home tournament on January 20th. Everything was delicious and the Novice team thanks everyone of you!

I am sending out a huge "Thank You" to everyone involved in the rink this year! The rink board and hockey families are working hard, it is so nice to see the community come together. It takes a lot of work from **everyone!** *Meagan Rhinehart*

Kudos to the Hanley/Rosedale Fire Dept who responded quickly and professionally to the Town shop when it was noticed that there was a fire in the attic! *Town of Hanley Council & Staff.*

A big "Thank You" to Ed Melo for cleaning our driveway and sidewalk of snow. It is greatly appreciated! Karen Reeves

"Thank You" to Char McGregor who created calendars from her photography and sold them with profits of \$225 towards the Fire Hall project. The pictures are beautiful!

"Thank You " to Bill Harris, Ed Melo and Lorne Peek from Marg Peters, for the work you do with the snow removal of my driveway & sidewalk. I greatly appreciate your thoughtfulness!

The Hanley Centennial Kitchen would like to send a Huge "Thank You" to Shelli Schwanbeck for donating several brand new T-towels for our kitchen!

HANLEY CULTURE CLUB 2018

Left to Right: Laine Soshyski, Austin Englot, Wyatt Hildebrand, Wyatt Olyniuk, Tyler Halabi, Garrett Bursaw, Kaedan McPhee, Vaughn Pitzel, & Conor Prosofsky

THANK YOU!

Hanley Culture Club 2018 would like to thank the communities of Hanley & Dundurn for their continued support. Hanley 2018 Culture Club is made up of nine Grade 12 students who will travel to Italy, Germany, and Switzerland in March 2018 for a once in a lifetime educational tour.

Without the support of our community members this may not be possible. Our 2018 group has finished fundraising and the 2019 group will be continuing to fundraise.

Culture Club 2019 consists of the following students:

Bayer, Rylen Bellina, Brayden Cline, Chase Cory, Samuel Gogol, Kristine Jones Del Socorro, Ashton Heston, Justin Kloetz, Erich Lindenschmidt, Brook Moulding, & Jadya Reiber

HOW TO READ YOUR WATER METER

The Water Utility will read your water meter for billing purposes, but **should you wish to monitor your own consumption**, here's how:

- ◆ Open the lid on the register and shine a flashlight on the solar panel to activate the LCD display. This may take a few seconds to activate. *
- ◆ Take a reading at a set time of the day.
- ◆ Take a 2nd reading at the same time the next day.
- ◆ The difference between the two readings is your daily water consumption.

*Note: when the register display is first activated with a flashlight, all icons will be briefly displayed followed by firmware information. The display will then show the lifetime consumption reading followed 30 seconds later by the current flow rate. The flow rate is in Litres Per Minute. When the display indicates "RATE" the flow rate is being displayed.

Leak Indicator

Displays a possible Leak

- ◆ OFF – indicates no leaks
- ◆ Flashing – water usage for more than 50% of time in 24-hour period
- ◆ Continuous ON – continuous water usage for 24 hours. There is most likely a leak in your home

Flow Indicator

Displays direction of water flow

The LCD figure displays your water meter reading in Cubic Metres (m³). The last 4 digits are decimal points.
(eg. 12,345.6789 Cubic Metres)

- ◆ ON – water in use
- ◆ OFF – water not in use
- ◆ Flashing – water is running slowly
- ◆ (-) – indicates reverse flow
- ◆ (+) – indicates forward flow

Overland Flood Insurance and the Provincial Disaster Assistance Program

PDAP is meant to provide financial assistance to eligible Saskatchewan homeowners that face natural disaster events where insurance is not currently available (i.e. readily available at a reasonable cost). It is not a substitute for private flood insurance.

In general, private flood insurance will allow homeowners to choose the amount of coverage and deductible level that best meets their needs.

1 What should I do right now?

- ✓ Talk with your insurance broker or insurance company to learn more about these products.
- ✓ Ensure you have adequate insurance that best meets your needs.

2 What will happen if I don't get flood insurance before it is readily available?

- ✓ Homeowners who don't purchase private flood insurance during this introductory period **may** still be eligible for PDAP assistance.

3 What will change once private flood insurance is considered to be readily available?

- ✓ The Government of Saskatchewan will make an announcement.
- ✓ PDAP will no longer provide financial assistance to homeowners for losses associated with flood damage if private insurance is readily available at a reasonable cost. Some homeowners may still qualify for PDAP in exceptional cases to be determined.

Where can I find more information?

- ✓ Your insurance provider
- ✓ PDAP
 - saskatchewan.ca/PDAP
 - 1-866-632-4033
- ✓ Insurance Bureau of Canada
 - ibc.ca/sk/home
 - 1-844-227-5422

Overland Flood Insurance and the Provincial Disaster Assistance Program

A Message from the Government of Saskatchewan

A number of private insurers are now offering flood insurance products to homeowners across Saskatchewan. This change may affect your eligibility for financial assistance under PDAP in the future.

saskatchewan.ca/PDAP

Overland Flood Insurance in Saskatchewan

Insurance providers in Saskatchewan have recently started to offer policies that protect homeowners from overland flooding. The Government of Saskatchewan advises all property owners to obtain adequate coverage for their property.

Q

Will flood insurance provide better coverage than PDAP?

A

PDAP provides assistance for uninsurable losses of essential goods to help people get back to pre-disaster condition, with specific limits on the amount of maximum assistance that can be provided. In general, overland flood insurance will allow people to choose the amount of coverage and the deductible level that best meets their needs. Homeowners are encouraged to speak to their insurance broker or insurance company.

Q

Will PDAP still provide assistance if I don't get flood insurance?

A

Eligible claims under PDAP depend on the availability and affordability of insurance in the Saskatchewan marketplace. At this point, overland flood insurance has not been deemed reasonably available in Saskatchewan.

Until it is determined to be reasonably available, applicants who have not purchased overland flood insurance will remain eligible for financial assistance under current PDAP regulations (even if a product was offered and declined). Applicants who have made the decision to purchase private flood insurance may not be considered eligible for financial assistance under PDAP for this type of loss, as per current regulations.

Once it is determined that flood insurance is reasonably available, some claims may no longer be eligible for PDAP assistance. Reasonable availability will be determined by PDAP. Homeowners are encouraged to speak to their insurance broker or insurance company.

Q

What will PDAP pay for flood damage?

A

PDAP's guidelines have always been consistent in that the program is not intended to compete with private insurers nor does it provide full compensation. PDAP provides assistance for uninsurable losses of essential goods to help people get back to pre-disaster condition, with specific limits on the amount of maximum assistance that can be provided.

DISASTER
ASSISTANCE
PROGRAM

PDAP

Q

If my property is located in a lower/higher-risk area, do I need to obtain insurance?

A

All homeowners should review their options for flood insurance with their insurance broker or insurance company to ensure they are getting adequate coverage for their properties, if it is available and at a reasonable cost. Reasonable cost varies by location of the property and level of risk.

Q

Will PDAP cover my flood insurance deductible?

A

No, PDAP does not cover insurance deductibles.

Q

Will PDAP top up my flood insurance amount?

A

No, PDAP cannot top up on any insurance coverage. However, until flood insurance is considered to be reasonably available in Saskatchewan, PDAP assistance will be considered in situations where eligible claimants can demonstrate that they are worse off as a result of purchasing flood insurance than if they had made a claim through PDAP. This could occur where an insurance company caps the total loss payable for a homeowner, perhaps because their home is in an area at a higher risk of flooding. By ensuring that homeowners are no worse off, this will avoid the perception that early adopters that chose to purchase insurance are being penalized for their choice.

Q

What if I can't get flood insurance?

A

Homeowners are strongly encouraged to check with their insurance broker and/or all insurance providers. As overland flooding insurance is new to Saskatchewan, not all insurance companies have announced implementation at this time.

If you need help getting in touch with your insurer, contact the IBC Consumer Information Centre at 1-844-2ASK-IBC (1-844-227-5422). Or you can utilize the resources and links provided below.
