## **What spurred me to run for council?**

To be a voice for those that are not comfortable speaking in public and to help resolve issues with an unbiased opinion

## **What do I love about Hanley?**

The way people in town pull together to tackle problems as a group

## **What issues would i push to change?**

Any issues that were brought to me as a councillor would be addressed

## **Why do I feel I would make a good councillor?**

I've been a shop steward and ran many jobs with many different personalities as a councillor I feel I'd be a great addition for the people
