

Bio: Rodney Lazenby

My name is Rodney Lazenby we moved here 6 yrs. ago. I am retired

I completed my grade twelve

During my working career I worked at key lake mine in northern Saskatchewan.iam my journey trade papers both in welding and millwright. I held various positions there. I filled in as a planner in the maintenance department also as front supervisor. So have experience in planning and scheduling work also know things sometimes do not go as planned.

1. What has spurred you to run for Council?

Want to give the rate payers a real choice in the up coming election.

2. What do you love about your Town?

It is a great small town with all the services one does in the day to day living

3. What would you push to change if elected?

We need to remember we are a small town. But we need to do better in certain matters. We need to do something about the slum property owners especially the one who do not live in town but rent out their houses to who every wants to live in them. I getting tired of the police coming out at least once a week to investigate some of them and getting woke up in the middle of the night with lights flashing.

4. Why do you feel you would make a good Councillor?

I Have served on church boards and camp boards over the years. I know now important it is to maintain the inter structure of building and grounds. If you do not look after them it just costs more to rebuild them in the end.
